Dear Dr. Torrecampo:

Warm greetings!

The Center for Human Research and Development Foundation is an organization devoted to the advancement of pedagogy in the teaching of research in all academic levels. Established in 1994, it aims to empower and recognize teachers of research through its streams of training and conferences. This year, we joyfully celebrate our 25 years of commitment as organization for professional trainings and development. We exert our best effort to be of service through quality and affordable trainings for teachers. Attached is the list of national and international conferences for professional teachers.

In this regard, we would like to ask for your help in disseminating information to your personnel through division advisory. We hope that you can help us reach more teachers who can further improve their knowledge, skills and attitude through our trainings.
